

June 30th, 1950

Mrs. Isabelle M. Stover
Reef Point, Bar Harbor, Maine

Dear Mrs. Stover:

I have yours of June 23d advising me that the Clutton-Brock volume is not available so we need not wait for it.

Please add to your Dumbarton Oaks book list - Palisot-de-Beauvois "Flore d'Oware-et-de-Benin, en Afrique. This is a large folio, two volumes, with 60 coloured plates in each volume. Mrs. Bliss purchased it from Miss Kramar, locally. Mrs. Willgoose has it in Founders Room, but I thought you might like to be advised.

I hope all goes well with you and yours, also Mrs. Farrand and the Reef Point family. Indirectly I learn that Mr. Patterson is expected after the Fourth. Presumably Mrs. Bliss wants to have a talk with him ere she takes off for California on the 9th.

By the way, do you know anything about the Garden plans &c which were supposed to come down from Reef Point? Mrs. Bliss asked about them yesterday and I told her that Mr. Patterson was taking care of them and would see that they were forwarded to us soon.

With ~~all~~ good wishes,

Sincerely yours,

BEATRIX FARRAND
LANDSCAPE GARDENER
REEF POINT
BAR HARBOR, MAINE

June 23, 1950

Dear Miss Sweeney

The Clutton-Brock book is not available, so you need not look for it any longer! Thanks so much for the recent letters and for telling me the books that have been received, I have put them on my copy of the book list - which by this time is a bit "messy" looking with its interlineations.

We haven't had any warm weather since the very first of the month, but have had some rain this week which we much needed.

My best to you,

Sincerely,

Isabelle M. Storer
