Dear Mrs. Stover:

I had just mailed your letter asking if it would be possible to let us have the negatives of the D.O. Garden pictures when Mrs. Bland reminded me she would need these very promptly and wondered if you could send them at once, even if they were supposed to go with the plans and drawings, because the two men who are to use the pictures must have their material early in June which doesn't leave us much time. I hope it will not be too inconvenient for you to send us the set so that we can get busy having a set of prints made.

Thanking you for your help,

Sincerely,
