Dearest Mildred:

The enclosed "P. S." shows a photograph of the sequoia tree plaque which Johnny has just sent in. The new boulder is much better than the old one and the plaque and its setting will I think please you when you see it.

Perhaps a kindly word could come to me saying whether the early days of April are as inconvenient for Dumbarton as I fancy they are likely to be!

At last the sun comes out after our floods. We ourselves uninjured and not even inconvenienced but the hardship ~~many~~ some of the poor people, especially the camping Mexicans, in the lower shack stretches of these upstart towns, have suffered badly and their loss is serious because the poor souls had so little to lose.

Yours ever
