

For Mrs. Farrand -

Outline of an article describing the gardens for the month of December. Try making a little sketch of a talk on whatever thing you think is likely to be interesting during the month, whether the leafless trees, winter buds or the history of vegetables, the study of weeds and where they come from or ?? All of this would make a good 10-15 minute talk in case the weather is too unpleasant for walking in the gardens.

Letter to Garden Page Editors asking how much copy they would like and when it should be submitted for publication.
