

May 18, 1950

Mrs. Isabelle M. Stover,
Reef Point, Bar Harbor, Maine.

Dear Mrs. Stover:

Thank you for your letter of May 15th regarding the D.O. negatives which Mr. Patterson is to send to us. Two of our scholars are writing articles the garden for foreign publication and are anxious to get prints made for this purpose.

We received a few days ago from Quar. DYKES' Genus Iris which I have listed on my D.O. Book and entered in the card catalogue. Will you also add to your list? I enclose also a memorandum bill which is in the package.

We have recently received, which you want to add to your book list, "English Gardens" by H. Avray Tipping and Labyrinte de Versailles by Nicol. Visscher. I don't know from whom they were received, that they were ordered by Mrs. Bliss.

I am sure Mrs. Farrand must be happy back at Reef Point and I know all your days and hers be full to overflowing. I do hope she feels the benefit of her winter in California and eager to enjoy the local home gardens at Reef Point.

With kind greetings to you and all the friends around you, I am

Very sincerely yours,

BEATRIX FARRAND
LANDSCAPE GARDENER
REEF POINT
BAR HARBOR
MAINE

May 15, 1950

Miss Anne Sweeney
1703 Thirty-second St.
Washington, 7, D. C.

Dear Miss Sweeney:

Thank you for your two letters. The box containing the D.O. negatives and some prints has been given to Mr. Patterson today to send to you. He is in charge of all packaging and sending of the material to go from here. I feel sure, however, that he will send them promptly as I told him how much in a hurry you were there for the negatives.

Mrs. Farrand is now here, seems very well and does so enjoy being back at Reef Point. The garden is pretty now with daffodils, pieris, crabapples, etc. in bloom.

Yours ever sincerely,

Isabelle M. Storer
