Mrs. Isabelle M. Stover
Reef Point, Bar Harbor, Maine.

Dear Mrs. Stover:

Well, the Labor Day week end is over and everyone seems to be concentrating on business for a change. Hope you had a pleasant holiday.

Today I received from Traylen one volume of Mrs. Loudon's work on Greenhouse Plants, 2d edition, the same as the Perennials. The one on annuals has not been received so far.

I have rearranged my office to better advantage and secured a discarded bookshelf for most of the larger garden books and it makes the place look much neater than before.

How is Mrs. Farrand doing and does she have any more trouble with her foot? Please remember me to Miss Paulding and say I'm sorry we three S's couldn't get together more often. I did enjoy my brief stay at Reef Point, thanks to both you gals. Do you ever hear from the other S?

Sincerely yours,
