The Valley Club of Montecito

Thank you my dearest dear for your quick
a commendatory telegram. Several holes have
been discovered in the fabric of the sketch re-
port sent you, & these are to be filled. Mr. Bullard
has not yet sent his approval but one or two
others of the board seem admirable - We'll

see - It's a delight that Odilon is glowing on
you & Robert, it has always pleased me, & how
much fun it is to give tips to people who

love them as well as one has ones self. No
one can know better than you, what fun
this is, your generous heart.

More will come later. Sun streaming
in after a couple of days fog, or humming
birds busily buzzing in the freshly opened
Jasmine. — Oh to have you back here —

Your ever devoted

Trix
