

BEATRIX FARRAND
LANDSCAPE GARDENER
REEF POINT
BAR HARBOR, MAINE

June 28, 1948

Dear Miss Sweeney:

Thanks for sending me the list of books which you have recently received, they have been added to my copy of the list. I am sorry that the Monograph on the Azalea is a duplicate, I had looked under "Wilson" for it and now find that it was there but under "Rehder". I suppose you will just have another set of duplicates on this one!

More books are being ordered today from Dulau, copy of the order is enclosed to you. Do you know whether you have the "Horticultural Colour *Chart", issued by the British Colour Council in collaboration with the Royal Horticultural Society (1938/41) 2 portfolios, octavo, cloth, the only modern colour chart especially designed for horticulturists. This is advertised in Chronica Botanica and Mrs. Farrand thinks it a good purchase if you do not already have it. I am ordering Gardens of Colony and State (Lockwood) from them as Fiedler could not furnish it.

As to the Shenstone, yes they were meant for you as Mrs. Farrand says they are important to have. She will probably tell you more about them when you are here.

Mrs. Farrand asks me to warn you that she may "Steal" from Dumbarton if you are lucky enough to get it the recent Uvedale Price books ordered from Edwards, to complete a set here at Reef Point. Will you let me know when you receive these, so that we may decide whether they are to come here or not.

Yours sincerely,

Isabelle S

Shenstone
* As it may not be classified as a book
visit on list I don't dare order until I'm
sure you haven't it;

June 26, 1948

Dulau's Department
B.H. Blackwell Ltd.
48-51 Broad Street
Oxford, England
